1/5/20. Chief Secy)

Sgd. 1/5/20.

5) Reference is invited to the portion marked 'A'. The practice referred to should be discouraged. Such prescriptions should be taken to Chemists' Shops, but in cases of great emergency, as in parts of Bangalore City far away from Chemists' Shops — say Basavangudi Malleswaram etc — medicines so prescribed maybe given from the dispensary on payment — a tariff being fixed slightly higher than the rate usually charged by private chemists — if the drugs are available in the dispensary.

6) Perhaps in some cases the charges levied by private Chemists are unreasonable but the remedy is not to drain the post-institutions.

2) Neither the Compounders nor the Sub Assistant Surgeons in charge of most of the Municipal Dispensaries in Bangalore, are provided with quarters in the premises. It will not, therefore, be possible to have private prescriptions made up in the dispensaries out of working hours. During the usual working hours, attention to private prescriptions will interfere with the work of attending to the needs of patients attending the dispensary and will add to their inconveniences of having to wait longer than they now have to do.

2) On principle too, I am opposed to Private prescriptions being dispensed at Public Medical Institutions in places where there are private dispensaries available, as it will be an injustice to the private dispensaries which ought to receive every encouragement.

3-11-1920.

25) I think we cannot keep well stop the practice of private prescriptions being allowed to at Govt dispensaries. The rule is inconvenient since it is not possible to define the limits within which a Govt dispensary should be situated in order that dispensing for the private prescriptions may not be allowed. But in order to prevent the people making this much use of Govt dispensaries the prescription of private chemists should be for not more than 5 days. The prescriptions may be dispensed only in working hours. Other rules remain as they are.

Sec
7/11

26) Submitted with a draft order as directed.

Under the existing rules for levy of fees in the Mofussil in Bangalore and Mysore cities, it is only persons whose monthly income exceeds Rs 50 and their families that are charged at the rate of 2 annas for each attendance (including medicines)

x Returned with G.O. dated 26.11.15 Sec-E

Serial No.

27) It is not known whether fees at the same rate are received even from private patients taking private prescriptions to the Branch dispensaries in Bangalore city. If so, according to the G.O proposed to issue, a fee of 4 annas will have to be paid for each day's medicine issued from the dispensary on private prescription. It is also a question for consideration whether double the fee prescribed is to be received even from private patients whose income is less than Rs 50 per mensem & their families, for making up their private prescriptions into 16.11.20. dispensaries.

28) The draft may be approved. It appears reasonable to levy the fee in all cases irrespective of the income limit.

Med 18.21.3 19739.

From

Rajakarya Pravina

Rao Bahadur T. V. Arumugum Mudaliar, Esq., M. B., C. M.

Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of

H. H. the Maharaja of Mysore,

Bangalore.

Sir,

With reference to your letter No.G.18226-Med. dated 9th February 1920, calling for a report in the matter of an article that had appeared in "the Truth" complaining of shortage of medicines in Government Hospitals and dispensaries, I have the honor to state that the indents for medicines from the medical institutions are prepared on the basis of average expenditure of each drug during the twelve months previous, and the quantity of each drug indented for is determined on what is required to make up the stock on hand, if any on the date of the indent, together with the quantity indented, equal to 50 % more than the quantity consumed during the last twelve months. It is reported by the Superintendent, Medical Stores, that the complaint is groundless in as much as the supplies made to the medical institutions during 1919 were more than in the previous two years. Sub Assistant Surgeons in charge of dispensaries in Bangalore are reported to have often complained to the Superintendent that private prescriptions (i.e., prescriptions given by medical men other than those in charge of the dispensaries, and probably intended to be made up at private Chemists' shops) are often taken to them and when such prescriptions happen to contain drugs not usually supplied to those dispensaries, the parties have to be sent away. This may be the cause of the complaint

JM

As regards the supplies from the Stores, the Superintendent reports that ~~supplies~~ adequate supplies are made according to requirements

I have the honor to be,

Sir,

Your most obedient servant,

Senior Surgeon.

To

Med 18.21-5

The Chief Secretary to the Government of
H. H. the Maharaja of Mysore,
Bangalore.

Sir,

In reply to your letter No.G.26976-Medl, dated 3rd June 1920, I have the honor to state that it is not desirable to permit private prescriptions being attended to at the Branch Dispensaries even in "emergent" cases because, during the working hours it will interfere with the legitimate work of the dispensary in attending to the prescriptions of the poor patients resorting to the dispensary for treatment, and out of the working hours it will be impracticable as it will necessitate the Sub Assistant Surgeon being made to remain in the Dispensary all the 24hours or his being put to the inconvenience of going from his house to the dispensary, opening the dispensary and compounding and giving the medicine himself, which will be too hard on the Sub Assistant Surgeon who will have been sufficiently hard-worked in attending to the usual routine of the dispensary morning and evening. As regards the distance, I may say that in these days of when motor cars, cycles and other means of fast locomotion are easily secured the extensions of Malleswaram and Basavanagudi cannot be said to be inconveniently far from the City where Chemists' Shops are situated, and it is only people that can afford such a conveyance (at least an ordinary bicycle) that will call in private practitioners. For these reasons the taking of private prescriptions to the branch dispensaries

must be altogether prohibited.

As regards the practice obtaining in Madras and Bombay, information will be called for and supplied on receipt.

I have the honor to be

Sir,

Your most obedient servan

G. O No. L. 726-36—Med. 18-21-9, dated 4th August 1921.

Private Prescriptions.

Directs that —— should not be allowed to be made up in Government Dispensaries.

READ-

Rule 30 of the rules issued with Government Proceedings No. 7332-72—Med. 89-06-57, dated the 24th February 1910, regarding the free supply to private patients of medicines from Hospitals and Dispensaries on prescriptions of Medical Officers in places where there are no chemists or druggists' shops.

2. Correspondence ending with letter No. Dis. C. 910, dated the 20th January 1921, from the Offg. Senior Surgeon, stating that on account of the reasons explained, the practice of permitting private prescriptions to be attended to at the Government Dispensaries may be altogether prohibited.

ORDER NO. L. 726-36—MED. 18-21-9, DATED 4TH AUGUST 1921.

Government are pleased to direct that private prescriptions, *i.e.*, prescription given by private practitioners should not be allowed to be made up in Government Dispensaries. The rules issued with Government Order No. 7332-72—Med. 89-06-57, dated 24th February 1910, should be strictly adhered to.
